Quick Installation Guide

Application schematic

1. Hardware installation

2. Driver Installation (e.g. win 7)

a. The installation wizard will pop up automatically, click the installation program for your matching operating system.

! If the above interface does not pop up automatically, please turn on the computer and double-click to run the CD drive. Before installing the driver, please turn off the firewall or other security protection software to prevent false alarms or block the installation during the installation process.

b. Click "Next"

c. Click "Install" and wait for about 1 minute, then click "Finish" to end the installation.

Tips: Connect the network cable after the installation is complete, and you can access the Internet normally.

快速安装指南

应用示意图

1. 硬件安装

2. 驱动安装 (以win7为例)

a. 自动弹出安装向导, 点击您所匹配的操作系统安装驱动

! 若以上界面没有自动弹出, 请打开计算机, 双击运行CD驱动器。安装驱动前请关闭防火墙或者其他安全防护软件, 防止安装过程中报错或阻止安装。

b. 点击 "下一步"

c. 点击 "安装", 等待大约1分钟后, 点击 "完成", 结束安装

提示: 完成安装后接入网线, 可正常上网。

尺寸: 450 x 85 mm (展开尺寸)
